

Instructions:

Pre-drill a 1/8" pilot hole into beam and fasten using screws provided.

WARNING: Weight should not exceed 25 lbs. per side. For maximum stability, total weight should be evenly distributed on both sides. Do not climb on or hang from the storage shelves.

Important: Mounting surface should be solid wood (at least 1" thick) and strong enough to hold intended weight. If mounting through or to another surface, use appropriate hardware.
