Special warnings when using this door kit

- 1. Wear appropriate eye protection, work gloves, safety shoes, and protective clothing when handling using this door assembly.**
- 2. Use caution when handling oils, tools, and work materials. Each can present hazardous situations. Check with all manufacturer's warnings and instructions when using other tools or materials.**
- 3. Do not use solvents or flammable materials to clean this doork kit. A mild soap detergent with warm water is sufficient. Solvents may damage the wheels or the paint and can create fire hazards.**

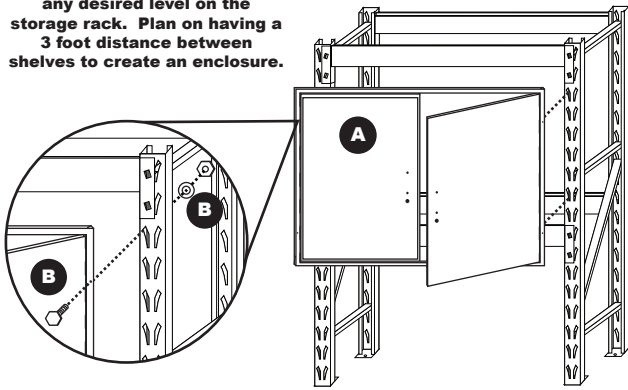

Tools Needed:

1. Flat head screw driver.
1. Two crescent wrenches.

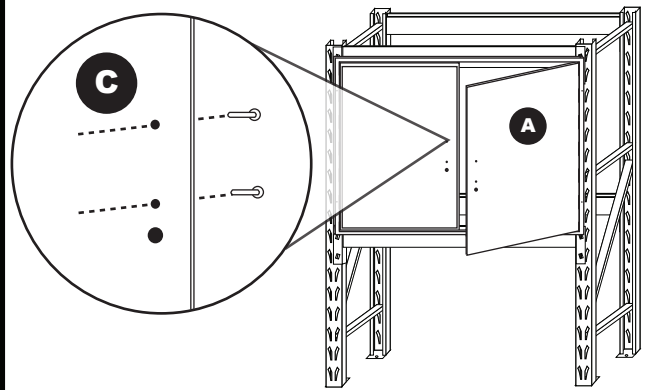

Step 1 Assembly

The doors may be assembled to any desired level on the storage rack. Plan on having a 3 foot distance between shelves to create an enclosure.

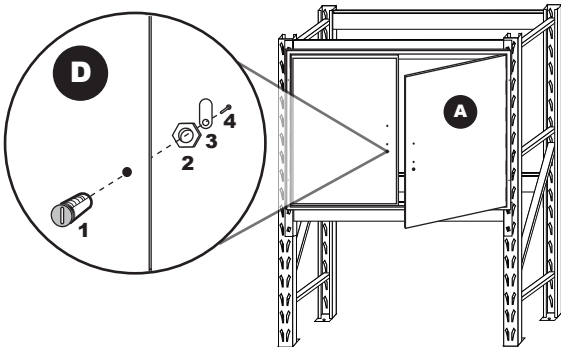

Attach the one door assembly (A) to the storage rack post with the four bolts (B) four washers (B) and four nuts (B). Start by aligning the top holes in the door assembly (A) with the 3rd key hole on the storage rack. Insert the bolt (B) and fasten with nut (B). Repeat the process for the bottom assembly holes. Make sure to tighten all four nuts securely.

Step 2 Assembly

Assemble door handles (B) by first aligning the handle on the face of the door assembly (A). Insert handle screws (B) through the back of the door assembly (A) into the door handle (B) and then tighten the screws. Repeat all steps for second door handle.

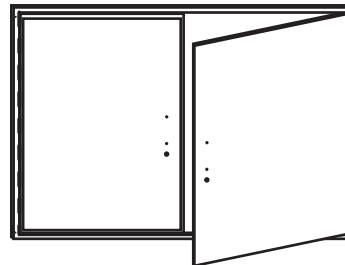

Step 3 Assembly

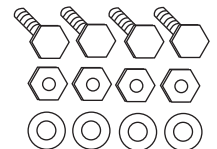

Remove the locking bar screw (4) from the main lock (1). Next remove the locking bar (3). Unscrew the large nut (2) from the main lock (1). Insert main lock (1) through the larger hole in the front of the door assembly (A). Thread large nut (2) onto main lock (1) and tighten securely. Re-install locking bar (3) onto main lock (1). Re-install locking bar screw (4) into the end of main lock (1). Repeat all steps to install second locking set.

Parts List

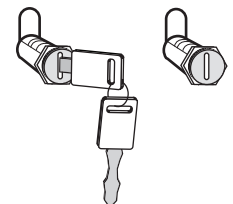

A One Door Assembly
